# WIR RX18

SoundPlus® Infrared Receiver

The WIR RX18 is an under-the-chin style infrared receiver suitable for mild to moderate hearing loss. It features high-quality, low-distortion sound and silicon ear couplings for maximum comfort and performance. The On/Off switch is built into the “arms” of the receiver, so it can never be left on to drain the batteries. Each RX18 receiver includes a BAT AP07D NiMH rechargeable battery. Use the RX18 receiver with any 2.3/stereo/2.8 MHz infrared listening system.
